

## **Baldwin Students score higher on the PEAU (College Board exam) than any other students in schools on the island**

Over the years Baldwin students have consistently been scoring very high on SAT and Puerto Rico College Board exams. In the year 2005 Baldwin School received a special award from the College Board because our students scored highest in the PEAU exam administered that year. Once again we are receiving this distinction in 2008 because the members of the class of 2008 scored highly on this year's exam. Dr. Brandt and Mrs. Maristany will receive this award in a special ceremony that will be held in September 26, 2008.

Additionally, Omar Gutierrez del Arroyo Santiago (Class of 2008) received on July 30, 2008 "El Premio a la Excelencia Academica Rafael Carrión Jr. ". This award is given by Fundación Banco Popular to only 100 students on the island who obtained the highest scores on the College Board and the Advanced Placement exams offered for students entering universities in Puerto Rico. Omar received a \$1000.00 scholarship together with the award.

Moreover, the College Board results received in June of our students of the Class of 2009 are also quite impressive, and show that Baldwin School students are scoring on average 100 or more points higher in each section of the College Board than most students of other private schools of the island:
